Washington, DC 20555

Dear Sirs:

Subject: Docket 50-156; Change in operating organization

The following information is submitted in compliance with
Technical Specification 6.7c(3) and 10 CFR 50.74.

Effective July 1, 2001, Professor Michael L. Corradini has replaced Professor Gilbert A. Emmert as Chairman of the Department of Engineering Physics. Professor Corradini has been active in reactor safety research for many years and has been heavily involved in efforts to assure financial support for non-power reactors.

Effective upon my retirement on August 10, 2001, Robert J. Agasie is appointed Reactor Director. Mr. Agasie served as a reactor operator and senior operator while a student, and has served as Associate Reactor Director since his return to the University in November 1999. In addition to Reactor Director duties as described in the license, Safety Analysis Report, and facility procedures, Mr. Agasie replaces the incumbent Reactor Director as custodian of special nuclear material for RIS ZZA and responsible staff member for the radioactive material used at the Reactor Laboratory under the University Broad License. Further, Mr. Agasie will assume responsibility for administration of the Reactor Laboratory 128 fund and other financial management duties and for all contracts for which I am listed as Principal Investigator.

R. J. Cashwell
Distinguished Lecturer
and Reactor Director

Michael L. Corradini
Department Chair
