I write to request that the period for submitting comments and questions on the List of Approved Spent Fuel Storage Casks: Standardized NUHOMES-24P and 52B Revision published in the June 29th 2001 Federal Register be extended. I also want to be placed on the notification list as an interested party.

I also request that a full public hearing with meaningful public notice and media outlet notices as well, be scheduled before any rules are adopted that would allow the storage of nuclear waste in bunkers, storage casks or any other method at Oyster Creek.

Please record us as opposed to any changes in rules which would allow the storage of nuclear waste at Oyster Creek using any technology.....if you can't find a way or a place to remove the garbage to.....stop making garbage.

Dear Sirs,

I am requesting an extension of the period for submitting comments and questions on the List of Approved Spent Fuel Storage Casks: Standardized NUHOMES - 24P and 52B Revision published in the June 29, 2001 Federal Register at 66 Fed Reg. 34523. Based on what I have read about the history of these casks they are not something I want to have to live or drive past.

A concerned citizen,

Rebecca Healy
