MEMORANDUM TO: File

FROM: Sam Lee, Sr. Materials Engineer /RA/
Engineering Section
License Renewal and Standardization Branch
Division of Regulatory Improvement Programs
Office of Nuclear Reactor Regulation

SUBJECT: REQUEST NUCLEAR ENERGY INSTITUTE (NEI) RELEASE OF
NEI 95-10, REVISION 3, FOR PUBLICATION

The staff planned to make a compact disc (CD) containing the improved license renewal documents publicly available through the Government Printing Office. These documents would include NEI document NEI 95-10, Revision 3. Enclosed is the e-mail communication with Mr. Alan Nelson of NEI requesting the release of NEI 95-10, Revision 3. As a result, NEI provided an August 2, 2001, letter from Robert W. Bishop to Christopher I. Grimes of the NRC. NEI provided this letter electronically (ADAMS accession number ML012140385) and in hard copy (ADAMS accession number ML012190143). We planned to include this NEI release letter in the CD with the improved license renewal documents.

Alan:

As discussed, we are in the process of publishing the improved license renewal guidance documents, including NEI 95-10, Rev. 3, on a CD through the Government Printing Office. Because 95-10 is an NEI document, our Publications staff is requesting, quoted from their e-mail to me: "Yes, we need a statement that we can put with the document on the CD stating that NEI grants permission for the public to use their information. It should be written by their legal staff." Because we are announcing the public availability of these documents, including a CD, we would appreciate a quick turnaround from NEI.

Thanks,
Sam
