Re: Turkey Point Units 3 and 4
Docket Nos. 50-250 and 50-251
Supplemental Response to Request for Additional Information
for the Review of the Turkey Point Units 3 and 4
License Renewal Application

By letter dated April 19, 2001, FPL provided responses to Requests for Additional Information (RAIs) associated with License Renewal Application (LRA) including Reactor Coolant Systems. Per discussion with NRC Staff on August 8, 2001, FPL provides the following to clarify the response to RAI 3.2.3-3 provided in FPL letter L-2001-76. Per LRA Table 3.2-1 (page 3.2-64), cracking is an aging effect requiring management for the pressurizer stainless steel cladding including those locations associated with internal type 304 stainless steel pressurizer support welds.

Should you have any further questions, please contact E. A. Thompson at (305)246-6921.

Very truly yours,

T. O. Jones
Acting Vice President - Turkey Point
