

August 29, 2001

Mr. William W. Ascroft-Hutton
HM Superintending Inspector of Nuclear Installations
St. Peter's House
Stanley Precinct
Balliol Road, Bootie
Merseyside L20 3LZ
United Kingdom

Dear Mr. Ascroft-Hutton:

In your letter of August 7, 2001, you indicated that you were holding a course on safety assessment in November 2001, and that you were in a position to offer two places in the course for members of our staff. You also indicated that this course may be of benefit to the staff because of your experience with modular facilities, which is a challenge that we are currently facing. You have also previously indicated that your experience with gas-cooled reactor technology would be beneficial to our staff.

In response to your offer, I am pleased to be able to send two individuals from our New Reactor Licensing Project Office (NRLPO) to attend the course. At your convenience, please provide a contact for the course arrangements, administration, etc. Our point of contact is James E. Lyons, Director, NRLPO. Mr. Lyons can be reached at jel@nrc.gov or 301-415-1126.

Sincerely,

/RA/

Samuel J. Collins, Director
Office Of Nuclear Reactor Regulation
