Mr. William J. Sinclair, Director
Division Of Radiation Control
Department of Environmental Quality
168 North 1950 West
P.O. Box 144850
Salt Lake City, Utah 84114-4850

Dear Mr. Sinclair:

As requested, we have reviewed the proposed changes to regulation R313-38, "Radiation Safety Requirements for Wireline Service Operation and Subsurface Tracer Studies," sent May 21, 2001. The proposed regulation is in response to the one amendment identified in the enclosed State Regulation Status (SRS) Data Sheet. The regulation was reviewed by comparison to the equivalent NRC regulations in 10 CFR Part 39. We also discussed our review of the regulation with Julie Felice on June 19, 2001.

As a result of our review, we have no significant comments. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that a State regulation meets the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final State regulation. However, we have determined that if your proposed regulation was adopted without significant change, it would meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure SA-200, revised February 6, 2001.

We request that when the proposed regulation is adopted and published as a final regulation, a copy of the "as published" regulation be provided to us for review. As requested in STP Procedure SA-201, *Review of State Regulatory Requirements* (November 10, 1998), please highlight the final changes and send one hard copy to STP.

The SRS Data Sheet summarizes our knowledge of the status of other Utah regulations. Please let us know if you note any inaccuracies or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the STP Web Site: <http://www.hsrc.ornl.gov/nrc/rulemaking.htm>.

If you have any questions regarding the comments, the compatibility and health categories, or any of the NRC regulations used in the review, please contact me or John Zabko at (301) 415-1277 or JGZ@NRC.GOV.

Sincerely,

/RA/

Frederick C. Combs, Deputy Director
Office of State and Tribal Programs
