July 16, 2001

John F. Rogge, Chief  
Project Branch 7  
Division of Reactor Projects  
U.S. Nuclear Regulatory Commission  
475 Allendale Road  
King of Prussia, PA 19406

Dear Mr. Rogge:

It is our understanding that Exelon Nuclear has delayed submitting its application to the Nuclear Regulatory Commission seeking approval to relocate the Three Mile Island emergency operations facility from Susquehanna Township.

I am writing to request that the Borough of Elizabethtown receive notification when the application for this project is submitted. In this event, we would also request an opportunity to testify to the Nuclear Regulatory Commission regarding this application.

Thank you for your consideration.

Sincerely,

Meade G. Bierly  
Borough Council President

CC: David Carl, Exelon Nuclear  
MGB/rr
