Subject: Excursion Reporting of Monitor Well M2

As per License Section 12.2, COGEMA Mining, Inc. is reporting that perimeter ore zone monitor well M2 has been placed on excursion status. M2 exceeded 2 of its 3 upper control limits on its quarterly sample (8-14-01) and on its verification sample (8-15-01). M2 is located on the west side of Production Unit 2, at the Irigaray Project. Note that this is the third time M2 was placed on excursion status during 2001. No health or environmental hazards are anticipated.

A written report will be submitted to the Chief, Fuel Cycle Licensing Branch giving details of the excursion and corrective actions.
