**SECTION 3
FITNESS FOR DUTY PROGRAM
PERFORMANCE DATA**

- 1) The Fermi 2 annualized testing rate in the Random Test Program for this reporting period was 59% (average pool size was 1426, total tested was 420). All individuals reporting to the Fermi Energy Center are in the Random testing program.
- 2) Detroit Edison does not have an on-site testing facility but transports specimens to a laboratory certified by the Department of Health and Human Services.

REPORTS MADE UNDER 10CFR26.73

There were no reports made under 10CFR26.73.

TESTING RESULTS

There were two individuals who tested positive for the six month period ending June 30, 2001. The positive tests were categorized as follows:

Pre-Access Testing

There were no positive tests in this category during this six month period.

For-Cause Testing

One licensee employee tested positive for alcohol.

The for-cause test was conducted when a security officer detected the odor of alcohol as the individual processed through the access portal. A review of the individuals' work activities was performed and no deficient work practices which could impact safety related equipment/systems were identified. The employee was referred to the Employee Assistance Program (EAP). The employee was denied access for 14 days, returned to work and placed into the follow-up program.

Random Testing

One contract employee tested positive for opiates.

The individual admitted to using another persons' prescription medication. A review of the individual's work activities was performed and no deficient work

practices which could impact safety related equipment/systems were identified.
The individual's unescorted access was suspended.

Follow-Up Testing

There were no positive tests in this category during this six-month period.

SUMMARY OF MANAGEMENT ACTIONS

There was one appeal received during this six-month period. The appeal was reviewed by the appropriate levels of management and upheld as originally ruled.

There were no Condition Assessment Resolution Documents (CARs) written identifying deficiencies in the Fitness For Duty Program during this six-month period.
