**Subject:** Conference call with FEMA to discuss Decommissioning EP

I have arranged a conference call with FEMA for Monday, August 14, 2000, at 1:00 PM to discuss with FEMA Decommissioning EP.

Bridge number to call in on is: 301-231-5539 and pass code is [REDACTED] *Ex 2*

For those at NRC we will meet in Conference room O6B6 for the call. Note, it is a small conference room, I didn't expect a large group.

For those at FEMA - Attached is a URL which will get you to SECY-00-145. This is the Commission Paper with our recommendations for rulemaking plan to address EP, and other areas, at Decommissioning plants. We provided you with previous drafts of this document, this is the final version as issued. It contains a good background section and discussion of our proposed options for rulemaking to include a risk-informed approach.
