Subject: Fwd: Quad Cities OSRE Findings Assessment

Attached is a head's-up. I mentioned to you guys that we would probably be looking at this stuff informally - later rather than sooner. It appears from the attached that NRR has decided to look at it sooner rather than later, and to look at it formally. Please let me know how you would like to handle this from a coordination standpoint. Do you guys have a contact in NRR with whom you work on these types of issues? Let me know.

Jim
