Bev will send this again (in the morning) to the entire distribution list for enforcement panels; however, I wanted to get it to the key players in the region so you can start reviewing it right away if desired for Thursday's panel. Because there are lots of unanswered policy questions and NRR is not yet prepared to fully address enforcement, this will be considered a pre-SDP/enforcement panel. Attached is a planned agenda for the discussion as well as an SDP evaluation prepared by Doug Coe.
