Subject: Re: RSVP-Quad Cities Time Line Call

10 am tomorrow is ok.

>>> James Creed 08/23 9:58 AM >>>

Not long ago, at our request, Quad Cities provided us an "operations" time-line relating to two Quad Cities OSRE exercises. Several of you have reviewed that time-line and have identified some problems or questions relating to their submittal.

Dick Rosano and Ray Hsu called me yesterday to ask my assistance in setting up a conference call during which we came finalize a list of time-line related issues that can be carried forward and presented to the licensee for resolution. I was asked to try to set the call up for after 10:00 AM Eastern Time (9:00 AM Central Time) for tomorrow, August 24, 2000. John Thompson has suggested that this call take place today because we wanted to call the licensee tomorrow, but it seems impractical. The list of participants (y'all) has been suggested by others.

So I suggest the call be held at 10:00 AM Eastern Time (9:00 am Central Time) tomorrow, August 24, 2000. **Because I have little time to set up this call , I respectfully request that you RSVP to this email ASAP.** If this can be done, I will get a bridge and send the PIN to you.

Thanks,
Jim Creed
