**Subject:** Quad Cities OSRE Findings Assessment

Jack:

We will be setting up a conference call to discuss inspection activity at Com Ed as you requested.

Regarding Quad Cities, John Thompson coordinated a meeting between my staff and Bill Dean's staff yesterday. While numerous aspects of current and future policies were discussed, we walked away agreeing to forward from IOLB the OSRE findings from Quad Cities to the SDP panel for formal assessment. You (R3) will be represented in that assessment. After SDP, we can then proceed to enforcement, if appropriate. We plan to follow the same process for future safeguards inspection findings via HQ or the region.

The safeguards SDP may be undergoing revision in the near future, aligning with the thoughts outlined in SECY 00-0063 - critical safety functions. However, that is another's days issue for future inspections, upon SDP revision.

Thanks, Glenn
