

Date: July 26, 2001

SUMMARY OF INFORMATION COLLECTION REQUEST

Title: 10 CFR Part 34 - Licenses and Radiography and Radiation Safety Requirement for Radiographic Operations

Current Burden/Responses: 181,069 hours/219 responses

Proposed Burden/Responses: 139,644 hours/546 responses

Burden Attributable to Third-Party Collections: 63 hours

Frequency of Response: On occasion, 10 years

Reasons for Changes in Burden/Responses: The number of NRC licensees has decreased from 158 to 104, resulting in a burden reduction of 20,295 hours. The number of Agreement State licensees has decreased from 316 to 260, resulting in a burden reduction of 21,129 hours. The net result of NRC licensees and Agreement State licensees terminating their operations and relinquishing their licenses is a combined reduction in burden of 41,425 hours.

Level of Concurrence: Chief, Material Safety and Inspection Branch  
Division of Industrial and Medical Nuclear Safety  
Office of Nuclear Material Safety and Safeguards

Recordkeeping Requirements in Accordance with the Retention Periods for Records Rule: Yes

Search of the Information Requirements Control Automated System (IRCAS): IRCAS was searched on July 19, 2001. No duplication was found.

Abstract: 10 CFR Part 34 establishes radiation safety requirements for the use of radioactive material in industrial radiography. The information in the applications, reports, and records is used by the NRC staff to ensure that the health and safety of the public is protected and that licensee possession and use of source and byproduct material is in compliance with license and regulatory requirements.
