I don't have that in my files. I left the licensee a message to get me that info tomorrow morning.

Hey Stu,

Speaking of work, would you please let me know what Wally Beck's title is and how his name should be written in a letter.

Thanks,
Vonna

sad, but true. but things should slow down for me in a month or so.

>>> Vonna Ordaz 02/08 10:51 PM >>>
are you still here, too??

>>> Stewart Bailey 02/08 10:47 PM >>>
what are you doing here at this hour?

As you may know, the Quad Cities OSRE Inspection Report cover letter was issued on 2/1/01 with a preliminary white finding and no NOV, and it became publicly available today. The cover letter states that the licensee has the opportunity to request a Regulatory Conference to provide their perspectives on the significance of the findings and the bases for their position.

I received a phone call this evening from Mr. Wally Beck of Excelon (Quad Cities) indicating that they declined the opportunity for a Regulatory Conference. The next step is for DIPM/IOLB/RSS to write the final determination letter, which will document the phone call and provide the licensee with the final results of the finding.
