Subject: Quad Cities OSRE panel

If you are an addressee of this email, you participated in the 6/22/00 SDP panel on this case. On Friday, we will once again discuss (or hear NRR discuss) the most talked-about OSRE in a long time. See the attached e-mail. As I understand it, the inspection report is nearing completion. I also understand this call will be to discuss the evaluation that ComEd paid a contractor (SAIC?) to do, and how that info should be addressed in the inspection report/assessment.

If you can participate, please do so. At a minimum, Jack Grobe and I will represent Region III. I will provide a bridge number and pass code by a separate email prior to Friday. I will also pass along any other new information I may receive before the meeting. Note the panel will be at 0930 Central Time.
