Subject: phoncon with Mr. Blanch

An employee at Watts Bar has contacted Mr. Lochbaum stating that he has received his 4th death threat. This employee works on the ice condensor project at Watts Bar. Apparently Mr. Lochbaum has tried to get the TVA OIG, NRCX OIG and the FBI to get involved in this matter. According to Mr. Blanch no one is doing anything. Mr. Lochbaum is attempting to reach Chairman Jackson. He also is getting ready to go "public" with a statement that this has occurred and the NRC has done nothing....Mr. Lochbaum does not understand why OI Region II or Headquarters has not gotten involved. I have the employees name. Mr. Blanch stated Mr. Lochbaum would be happy to discuss this matter with NRC officials. Since this is all second hand I am unsure of where to take this thoughts....Z
