Mr. Stan Buhr
Standard Nuclear Consultants
1 S 016 Donny Hill Road
Elburn, IL 60119

Dear Mr. Buhr:

To facilitate NRC's inspection of Agreement State licensees working under reciprocity, it is important that your filing of deletions or changes of work dates be received in a timely manner. NRC must receive this filing at least three work days before the licensee engages in activities permitted under the General License established by 10 CFR 150.20. The rationale behind this requirement is that should NRC decide to conduct an inspection at a particular work location the inspector would need time to prepare for that inspection.

Please refer to GUIDELINES FOR FILING NUCLEAR REGULATORY COMMISSION FORM 241, which was included in the December 18, 2000, memorandum detailing reciprocity filing instructions for 2001.

Your notification to the NRC dated August 10, 2001, did not meet the requirement of being at least three work days in advance of generally licensed activities. Any additional failure to comply with the timeliness requirement may result in enforcement action.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter will be available **electronically** for public inspection in the NRC Public Document Room or from the *Publicly Available Records (PARS) component of NRC's document system (ADAMS)*. ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room).

We appreciate your cooperation. If you have any questions regarding these regulations please contact Doris Gonzalez at 630/829-9915.

Sincerely,

/RA/
