SUBJECT: MEETING SUMMARY - OCONEE NUCLEAR STATION

Dear Mr. McCollum:

This refers to the open meeting that was conducted on August 23, 2001, at the Nuclear Regulatory Commission Region II office. During this meeting you and members of your staff discussed the ongoing design basis upgrade project at the Oconee Nuclear Station. A list of attendees and a copy of your presentation handout and High Energy Line Break Revalidation Project Plan (dated August 16, 2001) are enclosed.

It is our opinion this meeting was beneficial in that it provided the NRC staff additional information and insights regarding your ongoing design basis upgrade projects. Additionally, the meeting provided the NRC staff with an improved understanding of your views regarding some aspects of our implementation of the Reactor Oversight Program.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room).

Should you have any questions concerning this meeting, please contact me at (404) 562-4550.

Sincerely,

*/RA/*
