**U.S. Nuclear Regulatory Commission
ADP Software Acquisition Survey
Fiscal Year 2001**

1. Software Name: Radiation Exposure Information and Reporting System (REIRS) w/REMIT	
2. Computer Language Used: Oracle 8.1.6, Visual Fox Pro, Visual Basic	
3. System Upon which Software Operates: Compaq Proliant NT, Windows PC	
4. Physical Location of Software: SAIC at Oak Ridge	
5. Software Description & Purpose: REIRS is a database management system for maintaining licensee radiation exposure records; REMIT assists NRC licensees to manage and report the exposure information.	
6. Software ID Number:	
7. Name of Creator or Vendor: REIRS (Oracle Corp.); REMIT (SAIC)	
8. Accounting and Appropriation Data	
Contract #/PO#/Req#/Proj#: NRC-04-99-050	
JOB CODE/BOC: Y6133	B&R No: 60-15-11-01-10
9. Date of Operation: REIRS 10 / 01 / 89 XXXX Actual Expected REMIT 06 / 01 / 93	
10. Projected Useful Life or Scheduled Date of Replacement: Indefinite	
11. Completed Software Cost: REIRS \$19K (Commercial) XXXX Actual Expected REMIT \$150K	
12. Please check if software falls into one or more of the following categories (check all that apply):	
<input checked="" type="checkbox"/> Development/enhancement/acquisition/purchase	
<input type="checkbox"/> Analytical Code	
<input type="checkbox"/> Internally developed (excluding DOE)	
<input type="checkbox"/> Software maintenance costs	
<input type="checkbox"/> Software used for research	
<input type="checkbox"/> Repair of a design flaw	
<input type="checkbox"/> Add significant additional capabilities	
<input type="checkbox"/> Extend useful life	
<input type="checkbox"/> Software integrated into and necessary to operate general PP&E
