**SUBJECT: RELEASE OF FORMER NATIONAL ADVISORY COMMITTEE FOR
AERONAUTICS FACILITY SITE FOR UNRESTRICTED USE**

Dear Mr. Babb;

This refers to the National Advisory Committee for Aeronautics facility described in AEC Materials License No. C-03523 (retired). The facility was identified as a site which required further investigation to verify that it was properly decommissioned. The NRC has completed its review of the site and, based on this review, the NRC considers that no further remediation is required and that the site meets the current criteria for unrestricted use.
