

50-281

REGULATORY DOCKET FILE COPY  
AUGUST 29 1980

Docket Nos. 50-280  
and 50-281

Mr. J. H. Ferguson  
Executive Vice President - Power  
Virginia Electric and Power Company  
Post Office Box 26666  
Richmond, Virginia 23261

Dear Mr. Ferguson:

The Commission has issued the enclosed Amendment Nos. 60 and 60 to Facility Operating License Nos. DPR-32 and DPR-37 for the Surry Power Station, Unit Nos. 1 and 2.

By amendments dated October 31, 1974, we revised the Surry licenses to incorporate the more general license language regarding receipt, possession, and use of byproduct, source, and special nuclear material which is being used in new operating licenses. However, in the amendments, the language which allowed the possession of byproduct was inadvertently omitted from the license. The purpose of these amendments is to correct this omission. At the same time, we are incorporating the latest language in use in licenses. These changes do not change any conclusions of the October 31, 1974 amendments.

We have determined that these amendments do not authorize a change in effluent types or total amounts nor an increase in power level and will not result in any significant environmental impact. Having made this determination, we have further concluded that the amendments are insignificant from the standpoint of environmental impact and, pursuant to 10 CFR 51.5(d)(4), that an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with these amendments.

We have concluded, based on the consideration discussed above, that: (1) because the amendments do not involve a significant increase in the probability or consequences of accidents previously considered and do not involve a significant decrease in a safety margin, the amendments do not involve a significant hazards consideration, (2) there is reasonable

VIRGINIA ELECTRIC AND POWER COMPANY

DOCKET NO. 50-280

SURRY POWER STATION, UNIT NO. 1

AMENDMENT TO FACILITY OPERATING LICENSE

Amendment No. 60  
License No. DPR-32

1. The Nuclear Regulatory Commission (the Commission) has found that:
  - A. The facility will operate in conformity with the application, the provisions of the Act, and the rules and regulations of the Commission;
  - B. There is reasonable assurance (i) that the activities authorized by this amendment can be conducted without endangering the health and safety of the public, and (ii) that such activities will be conducted in compliance with the Commission's regulations;
  - C. The issuance of this amendment will not be inimical to the common defense and security or to the health and safety of the public; and
  - D. The issuance of this amendment is in accordance with 10 CFR Part 51 of the Commission's regulations and all applicable requirements have been satisfied.
2. Accordingly, paragraphs 2.D and 2.E of Facility Operating License No. DPR-32 are hereby amended to read as follows:
  - "D. Pursuant to the Act and 10 CFR Parts 30, 40 and 70, to receive, possess and use in amounts as required any byproduct, source or special nuclear material without restriction to chemical or physical form, for sample analysis or instrument calibration or associated with radioactive apparatus or components;

E. Pursuant to the Act 10 CFR Parts 30 and 70, to possess, but not separate, such byproduct and special nuclear materials as may be produced by the operation of the facility."

3. This license amendment is effective as of the date of its issuance.

Division of Licensing

Date of Issuance: August 29, 1980

UNITED STATES NUCLEAR REGULATORY COMMISSION  
DOCKET NOS. 50-280 AND 50-281  
VIRGINIA ELECTRIC AND POWER COMPANY  
NOTICE OF ISSUANCE OF AMENDMENTS TO FACILITY  
OPERATING LICENSES

The U. S. Nuclear Regulatory Commission (the Commission) has issued Amendment Nos. 60 and 60 to Facility Operating License Nos. DPR-32 and DPR-37 issued to Virginia Electric and Power Company, which revised the licenses of the Surry Power Station, Unit Nos. 1 and 2 (the facility) located in Surry County, Virginia. The amendments are effective as of the date of issuance.

By amendments dated October 31, 1974, we revised the Surry licenses to incorporate the more general license language regarding receipt, possession, and use of byproduct, source, and special nuclear material which is being used in new operating licenses. However, in the amendments, the language which allowed the possession of byproduct was inadvertently omitted from the license. The purpose of these amendments is to correct this omission. At the same time, we are incorporating the latest language in use in licenses. These changes do not change any conclusions of the October 31, 1974 amendments.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations

- 2 -

in 10 CFR, Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since they do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of these amendments.

For further details with respect to this action, see (1) Amendment Nos. 60 and 60 to License Nos. DPR-32 and DPR-37, and (2) the Commission's letter dated August 29, 1980. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D. C. and the Swem Library, College of William and Mary, Williamsburg, Virginia. A copy of items (1) and (2) may be obtained upon request addressed to the U. S. Nuclear Regulatory Commission, Washington, D. C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 29th day of August, 1980.
