Catawba: RP/0/A/5000/001 – Classification of Emergency.

McGuire: RP/0/A/5700/000 - Classification of Emergency.

Consider this when completing the “unit designation” on line 2 of the Emergency Notification Form. {PIP 0-M97-4638}

3. Subsequent Actions

_____ 3.1. EOF Lead Communicator should review duties listed in **Enclosure 4.8**, (EOF Lead Off-Site Communicator Duties).

_____ 3.2. Update the following Status Board in the EOF to include the information from **Section 2.4** (i.e. next message due, etc.).

- McGuire - the McGuire procedure cabinet in the EOF Director's area.

_____ 3.9 Have one of the other EOF OSAC's arrange for 24-hour EOF OSAC coverage.

_____ 3.10 Review the following information concerning notifications.

3.11 Initial Notifications

The first notification made in each of the four Emergency Classifications is called Initial Notifications. Initial Notifications **shall** be made within **15 minutes** of entering each of the Emergency Classifications (i.e., Classification changes) and shall be communicated verbally. The message number will remain sequential throughout the event beginning with the Control Room.

NOTE: Follow-up messages of a lesser classification should never be approved after an upgrade to a new classification is declared. Emphasis should be placed on providing current information and NOT on providing a follow-up just to meet follow-up deadline. If a follow-up is due and an upgrade in classification is declared, Off-Site Agency Communicators should contact the agencies that the pending follow-up is being superseded by an upgrade in classification and information will be provided within 15 minutes.

NOTE: Follow-up messages that involve a change in the Protective Action Recommendations shall be communicated to the off-site agencies within 15 minutes and should be communicated verbally. All other follow-up messages may be faxed with phone verification of receipt.

3.12 Follow-up Notifications

Notifications following Initial Notifications within the same Emergency Classification are called follow-up notifications. Make follow-up notifications to state and county government officials according to the following schedule:

Every hour until the emergency is closed out

OR

If there is any significant change to the situation (make notification as soon as possible)

OR

As agreed upon with an Emergency Management official from each individual agency. Documentation shall be maintained for any agreed upon schedule change and the interval shall not be greater than 4 hours to any agency.

NOTE: At some time during the event as the various EOCs are staffed, Off-site agencies may request that the Notification form be faxed to other Fax numbers. When this occurs make arrangements to have the form faxed to the requested numbers.

3.13 Termination Notification

The last notification sent to the Off-site Agencies is for terminating the event. Termination notifications will be designated as follow-up messages.

3.14 Other Information

In addition to the Emergency Action Level information that is entered on Line 7 of the Emergency Notification Form (ENF), other events/occurrences will need to be reported to the Off-Site Agencies as well. This would include any event, which has the potential to affect the public. The following are some examples but is not an all-inclusive list. Each event should be carefully evaluated and discussed with the EOF Director to assure pertinent information is forwarded to the Off-Site Agencies. (PIP 0-M98-2065)*

NOTE: These events may be the basis for the current emergency classification or an additional event to be reported under Step 7 of the Emergency Notification Form (ENF). These events may need off-site agency action or resolution.

- Other unrelated classifiable events (for example, during an Alert, an event which, by itself would meet the conditions for an Unusual Event)
- Major/Key Equipment Out of Service
- Emergency response actions underway
- Fire(s) onsite
- Flooding related to the emergency
- Explosions
- Loss of Offsite Power
- Core Uncovery
- Core Damage
- Medical Emergency Response Team activation related to the emergency
- Personnel injury related to the emergency or death
- Transport of injured individuals offsite - specify whether contaminated or not
- Site Evacuation/relocation of site personnel
- Saboteurs/Intruders/Suspicious devices/Threats
- Chemical or Hazardous Material Spills or Releases
- Extraordinary noises audible offsite
- Any event causing/requiring offsite agency response
- Any event causing increased media attention

* Notification to off-site agencies should take place as soon as possible.

NOTE: Allow 4 to 5 minutes if it is desired that the Notification form be received by the agencies prior to contacting them by phone.

- IF desired, monitor the fax status by clicking the AT&T Mail button at the bottom of the screen (ie; maximize the program).
- IF the fax program does not appear to be working, (ie; fax not being transmitted). Refer to Enclosure 4.4 for alternate fax instructions.

8.9 Establish communications with the Off-site Agencies via the Selective Signaling Phone per the following:

- Activate the Group Call function by dialing * 5 (CNS) or *1 (MNS) and verify that each agency answers. (If all agencies do not answer the group call, dial the specific agency individually.)

NOTE: The transmittal time will need to be hand written on the copy of the ENF that the EOFD has previously signed.

- Verify that all available agencies are on the line. Document this as the transmittal time.
- Verify that all Agencies have received the Faxed ENF and verbally communicate the message to the Off Site Agencies. **(If ENF has not been received ask agencies to get a blank ENF and that you will provide the information.)**

NOTE: Authentication Code should be hand written on the copy of the ENF that the EOFD has previously signed.

- For Termination Notifications, when you reach item #4, ask the State or a County to authenticate the message. The agency should give you a number to which you will reply with the appropriate code word. Write the number and code word on the form.
- Ask if there are any questions, regarding the Termination ENF information.
- Obtain the names of the agency representatives. Record the names on the back of the hard copy of the ENF or use a copy of page 2 of Enclosure 4.7.
- After message transmission is complete, select **Message** from the toolbar, then choose **"Set Transmittal Date/Time"**.

Obtain a copy of the Emergency Notification Form from the Catawba or McGuire Procedure Cabinet located in the EOF Directors area.

NOTE: * Items 11-14 may be skipped on initial notifications

Item #	Communicator Action	Info Source
1.	Check appropriate blocks: (Drill/Emergency).(Initial/Follow-up) Initial: First message in each of the 4 classifications. 1. Transmitting a Message

- 1.1** Review the following Selective Signal guideline if necessary to familiarize yourself with its operation.

SELECTIVE SIGNALING	
NOTE:	Selective Signaling is an open line that is capable of connecting all agencies together at the same time. No special conferencing process is required to get all agencies on the line. The line is always active (i.e., no dial tone). * 5 (CNS) or * 1 (MNS) may be used initially to contact county and warning points/EOCs.
NOTE:	The handset has a "push to talk" button which must be pressed in order for the parties on the other end to hear you. To use the headset instead of the handset, set the switch on the headset controller to "headset" and remove the handset from the phone cradle. Then resume normal operation. There is no "push to talk" feature associated with the headset however, the handset must be removed from the cradle when the headset is in use.
1.	Pick up receiver (no dial tone will be heard). Dial * 5 (CNS) or * 1 (MNS) and wait for agencies to answer. Verify that all agencies have answered. Note: If all agencies do not answer the group call, dial the agencies individually per step 2.
2.	Alternately, the agencies may be contacted individually by dialing the three digit Selective Signal number for each agency. When they pick up, identify yourself and tell them to hold while you get the other agencies on the line. Dial the second agency's three-digit Selective Signal number. When they pick up, identify yourself and tell them to hold while you get the other agencies on the line.
3.	Continue this process until all applicable agencies are on the line.

NOTE: If Selective Signal Communications fail, the following is the suggested priority for backup communications systems used to notify the states and counties.

1.2 1st - Commercial Telephone (Bell Line) (Conference Call)

- **CATAWBA**

Refer to the Emergency Response Telephone Directory, Enclosure 1.1 for instructions on the use of telephones in the EOF, conference call instructions, and individual bell line numbers.

- **MCGUIRE**

Refer to Enclosure 4.10 (EOF Programmable Conference Telephones) of RP/0/A/5700/014 (Emergency Telephone Directory) for instructions on the use of telephones in the EOF, conference call instructions, and individual bell line numbers

1.3 2nd - North Carolina and/or South Carolina Emergency Management Radio.

- **CATAWBA**

Refer to the Emergency Response Telephone Directory, Enclosure 1.6, for instructions on the use of the State Emergency Management Radios.

- **MCGUIRE**

Refer to the Emergency Response 4.11 (EOF County Emergency Response Radios) of RP/0/A/5700/014 (Emergency Telephone Directory) for instructions on the use of the State Emergency Management Radios.

1.4 3rd - Duke Power Radio Network (Low Band System)

- **CATAWBA**

Refer to the Emergency Response Telephone Directory, Enclosure 1.7, for instructions on the use of the Duke Power Low Band Radios.

If an off-site agency does not pick up, try dialing the Selective Signaling number again or get help to dial that agency on the Bell line and give the message separately. (Use radio if all other communication fails.)

- 3.1** When all available agencies are connected, document the time on line 3 as transmittal time and read the following statement: "This is a drill or actual emergency (whichever applies). The following is Emergency Notification ENF Information."
- 3.2** If this is the FIRST message from the EOF, inform the states and counties that the EOF has been activated and that you are taking over responsibility for communications from Catawba or McGuire Nuclear Station. **This should be noted on Line 7 of the Emergency Notification Form (ENF).**
- 3.3** Authenticate and Transmit the Emergency Notification (ENF) message providing line by line information to the agencies. When you reach line 4, ask one of the agencies to provide a number from the authentication code word list (Enclosure 4.5). Then give them the corresponding codeword for that listed number. Fill in line 4 with the number and codeword. (Ref. Enclosure 4.6 for authentication instructions.)
- 3.3.1** All initial notifications shall be communicated verbally. **Avoid using abbreviations or jargon likely to be unfamiliar to states and counties.** If any information is not available or not applicable, say "Not available" or "Not Applicable". Do not abbreviate "N.A." because this is ambiguous.
- 3.4** Upon completion of the message transmission, obtain the names of the agency representatives and complete documentation on the back of the Emergency Notification Form (ENF).

<p>NOTE: Date and time do not need to be filled in on back of form if <u>all</u> parties were on line at the time of message transmission.</p>

- 3.5** Inform the agencies of the following,
- This concludes message # ____.
 - They will be receiving a Fax copy of this message shortly.
 - Are there any questions about the message?

Emergency Notification Form Transmission

Follow-up messages may be faxed with phone verification of receipt. <u>This applies only if the message does not involve a change in the emergency classification or the protective action recommendations or a termination of the emergency.</u></p>

- 4.1 Verify that all sections have been completed and that the message has been approved.
- 4.2 Fax a copy of the form to the Off-Site Agencies per Enclosure 4.4.

- 1.3 Write the number and code word on the Emergency Notification Form (ENF) (Line 4).

2. Receiving A Call

When receiving a call from off site and the identity of the party calling is not known, you should:

- 2.1 Provide a number from Enclosure 4.5, "Message Authentication Code List," to the caller.
- 2.2 The caller will then provide the word corresponding with the number of the Authentication Code List.
- 2.3 Document in Communicator's Logbook.

**EOF Lead Off-Site Agency Communicator
Duties**

Page 1 of 2

Lead Person:

- Sign in on the white board in the EOF Director's area as the "Off-site Agency Communicator". Also sign in and ensure that the other EOF off-site agency communicators have signed in on the white board in the off-site agency communicator's area.
- Ensure adequate staffing of Emergency Off-site Agency Communicators (EOACs).
- Ensure all the EOACs have a copy of and understand the correct procedure and that they know their duties.
- Ensure that the EOACs are fit for duty prior to taking turnover from the site.
- Keep the EOF Director informed of progress in preparing to take turnover from the site. Ensure that the EOF promptly get copies of each site-issued Emergency Notification Form.
- Be the chief interface with the EOF Director.
- Have one of the EOACs arrange for 24-hour EOAC coverage.
- Check with dose assessment early and often to ensure that they don't delay an ENF. (It can take them 10 minutes to calculate doses so be sure that they have a 15 -minute warning before we need their data. If they aren't comfortable with their data or if they run low on time, get the Radiological Assessment Manager involved at once -- **do not delay!**)
- Check with the News Group to coordinate ENF transmittals with their press conference schedule. Information should always be issued on an ENF before the News Group releases it. If requested, review and approve (signature required) news releases.
- Resolve any questions concerning procedure or actions (the Emergency Planner can help).
- Ensure that all messages (ENFs) are accurate, complete, and issued on time.
- Decide when to omit dose data on the ENF (in the interest of timeliness).
- Keep up with events as they unfold for potential inclusion on the ENF. Ensure that events (e.g. injuries, fires, intruders, etc.) are reported and that later ENFs follow-up on those events and report their resolution ("close the loop").
- Proofread the ENF prior to giving it to the EOF Director for approval. Give the EOF Director sufficient time to review/change the ENF.
- Work with the EOF Services group to fix any problems with the FAX machines, selective signaling, etc. Advise the EOF Director of these problems.
- Decide which ENFs will be FAXed only (vs read and FAXed).
- Take notes during the drill/event for topics that should be discussed in the critique. Participate in the critique.
- After the drill/event tell the primary EOAC what role was filled by each communicator and of any comments/questions concerning their action in the drill/event.

**EOF Lead Off-Site Agency Communicator
Duties**

Page 2 of 2

ENF Person:

- Start EOAC computer and log in to electronic ENF.
- Verify that all users can access electronic ENF.
- Synchronize the EOAC computer clock with the TSC time.
- Complete ENF section 1 either electronically or on paper (NOTE: ENF section 1, lines 3 and 4 are entered by the phone person).
- Work with Accident Assessment and Rad Assessment to complete their sections of the ENF.
- Have the lead EOAC and the EOF Director review the ENF when it is ready.
- Ensure SR/0/B/2000/003 (Activation of the Emergency Operations Facility), Enclosure 4.9 (EOF Off-Site Agency Communicator Checklist) is completed.
- Collect and turn in all appropriate documentation to Emergency Planning at the end of the drill/event.
- Use ENF software to FAX ENF to JIC.
- Ensure all ENF software users are working on the current ENF message.

Phone Person

- Get current authentication code word list.
- Call the TSC to advise them of the start of communications checks.
- Perform communications checks with all participating off-site agencies.
