Proposed Rule: FR 4-16-01
Vol. 66 at pages 19609-19671

Re Licensing and ending public
participation in Reactor licensing
Hearings

Please enter these comments into the
formal hearing record.

This rule is a threat to our democratic
process regarding health and safety
issues. The public should always be
entitled to a full and meaningful
public participation in a hearing process
that provides for a complete record.
The nuclear industry must be required
to defend its proposals in formal
on-the-record public hearings.

I urge you to advocate for an accountable
energy policy that protects the public's
democratic participation in NRC
hearings on the risks and hazards

posed by the nuclear power proponents
and industry.

Again, I look forward to learning
your views on this. I live
within 10 miles of Limerick
Nuclear Power Plant.

Sincerely,

Tina Daly
