San-Carlos Team,
Collection can

come and cure cancer.
I'm much interested
can kill a person. It
might damage can
cure. Cancer is a
most dead disease.
Personal stories
the heart and my
own experience tell
me there is a line
need for that
standards concerning
(1) (< see left)

the operation of the
Museum Community
Research Center (MRC).
An Environmental
Impact Statement
could help with the
awareness of the
MRC
standards and operation.
Standards and
instruments are
expensive up front,
but in the long
run will save the
environment,
healthcare, lots of
money and other
things.
(2)

The less radioactive waste produced the better for all. This can only be achieved through standards.

Otherwise it will be a free for all and greed and ignorance will do us all in.

(3) Sincerely,
Sandra Deleoue
