Mr. Michael R. Lesar, Chief  
Rules and Directives Branch-Administrative Services  
US Nuclear Regulatory Commission  
Washington, DC 20555-0001

Dear Mr. Lesar:

I think there should be an annual assessment for the need of research nuclear reactor facilities as well as review of operation procedures, staffing as well as full environmental impact statements. And in this evaluative perspective, perhaps a stakeholder advisory panel should also be formed. I hope you will factor my comments into your future plans.

Sincerely,
