NRC TO MEET WITH PROGRESS ENERGY/CP&L OFFICIALS TO DISCUSS SAFETY PERFORMANCE AT ROBINSON NUCLEAR POWER PLANT

The U.S. Nuclear Regulatory Commission staff will meet with Progress Energy/CP&L officials on Wednesday, July 11, to discuss the results of NRC's annual assessment of safety performance at the Robinson nuclear power plant.

The meeting will be held at 1:30 p.m. in the Visitor Center Auditorium at the plant site near Hartsville, South Carolina. The public is invited to observe the meeting. NRC officials will be available after the meeting to answer questions. The NRC will hold a second meeting with state and local government officials after the first meeting. That second meeting is also open to the public.

A letter sent from NRC Region II to CP&L, which addresses plant safety performance during the previous year and forms the basis of the meeting discussion, is available from the Region II Office of Public Affairs or on the NRC web site at www.nrc.gov/OPA/ppr. Current information for the plant is available at www.nrc.gov/NRR/OVERSIGHT/ASSESS/ROB2/rob2_chart.html.
