To Whom It May Concern

I am vigorously opposed to the NRC proposed rulemaking as described in the Federal Register, April 16, 2001, vol. 66, which changes the licensing hearing process for nuclear power reactors. The public definitely MUST be entitled to full and meaningful participation in an on-the-record hearing process for the licensing of new reactors, the relicensing of aging reactors, and industry amendments to operating license safety requirements.

Thank you for attention.

Respectfully Yours,
