

ATTENTION: Rulemaking and
Adjudications Staff

TO: Office of the Secretary
U.S. Nuclear Regulatory
Commission

To whom it may concern: WASHINGTON DC 20555
September 04, 2001

I am opposed to the NRC proposed rulemaking as described in the Federal Register, April 16, 2001, Vol. 66 to change the licensing hearing process for nuclear power reactors.

The Public is entitled to full and meaningful participation in an on-the-record hearing process for the licensing of new reactors, the relicensing of aging reactors and industry amendments to operating license safety requirements

You need to stop shutting citizens out, especially when our taxes are so involved and our health is in question!

Have some courage!
