Re RSO change associated with Facility license R-126

To whom it may concern:

Jim Thompson, the Radiation Safety Officer (RSO) at the University of Utah has accepted a new position. The University is currently accepting applications for this position and anticipates the position will be filled within the next six months. During the interim Karen Langely, Alternate RSO, will be the acting Radiation Safety Officer for the University of Utah. Jim Thompson will be retained as a member of the Reactor Safety Committee for Facility license R-126.

Respectfully,

David M. Slaughter Ph.D.
Reactor Administrator
University of Utah
