 For review and action.

Attached is the regional review of the licensees timeline as requested. I would be glad to discuss with you or your staff any questions you may have with this review. I would also be interested in knowing our next step.

Steve: Could you please have Mike and others on your staff take a look at this and provide insight to Dick. Please consider the acceptability of the procedures and training with appropriate regional personnel, as articulated by Jon's Thompson's concerns during the post-exit meeting.

Dick: Please coordinate with John T. and Ray and provide feedback to me.

The sooner the better for me, in light of management needs for info on this one.

Thanks, GT
