To Whom It May Concern:

I am opposed to the NRC proposed rulemaking as described in the federal register, April 16, 2001, Vol. 66 – to change the licensing hearing process for nuclear power reactors. The public is entitled to full and meaningful participation in an on-the-record hearing process for the licensing of new reactors, the re-licensing of aging reactors and industry amendments to operating license safety requirements.

Thank You

Robert Crowley
