CONCERN 2 Licensee Employee

The CI stated "during development of the PER, I called upon Sequoyah for assistance to obtain a few of their ice basket screws to have analyzed, but my request was clearly denied in fear of it raising a generic concern that could shut them down."

ACTION: ARB DETERMINED THAT THIS IS CONJECTURE. RIGHT SCREWS WERE INSTALLED SEQUOYAH. NOT AN ALLEGATION.

CONCERN 3 Licensee Employee

The CI stated " In your report, Duke personnel stated that they have never found loose or broken ice basket screws on the floor of the ice condenser since the plants began commercial operation. In this letter you'll find the enclosed copy of notes outlining the conversation I had with Duke Power's [REDACTED] at which time he was actively involved with their ice condenser system." Note page attached.

CONCERN 4 Licensee Employee

The CI requested the following questions be asked associated with our inspection effort at Duke Power Company:

- 1) [REDACTED] did you have a conversation with ALLEGER of TVA (WBN) concerning failed ice basket screws? and what was your response? Note: [REDACTED] can be reached at [REDACTED]
- 2) "Was the inspection by the NRC made at the McGuire Plant during the ice basket servicing period of the outage? or after all work and post cleanup was completed? rendering the ice condenser floor clean."
- 3) "Were you aware of the discovery of broken ice basket screws at TVA's WBN?"
- 4) "Did you know that through their analysis that cracks were found in screws that were in service, and even in new screws in stock?"
- 5) Did you know that the tested ice basket screws were of AISI 1022 carbon steel material, the same as yours?"

The above information identifies new issues associated with the CI and his concern for ice condenser ice baskets. I believe the issues need to be followed up by the NRC Office of Investigations. We need to determine if we are being given factual information from both TVA and Duke Power licensees.

ACTION: DRS/MB REVIEW QUESTIONS PROVIDED BY THE ALLEGER.
