[redacted] has asked for a 30 minute meeting with the Chairman for [redacted] and [redacted]. I don't know whether the Chairman has agreed to take the meeting, but we will need a timeline for the events of late to support the meeting if it does occur. We don't need premature assessments, but knowing what happened and when would be helpful. 7C

[redacted] has said that they can meet any time Thursday or Friday, with the exception of mid-day Thursday, so I can't tell you how much time we have.

I'll let you know what I hear.
