Here are three postcard style variations on possible comments to the NRC regarding its proposed rule to essentially eliminate public hearings for reactor licenses. Feel free to pick one and send it in to the address below—and feel free to add your own thoughts as well!

OFFICE OF THE SECRETARY

U.S. NUCLEAR REGULATORY COMMISSION

WASHINGTON, DC 20555

ATTENTION: RULEMAKING AND ADJUDICATIONS STAFF

To Whom It May Concern:

I am opposed to the NRC proposed rulemaking as described in The Federal Register, April 16, 2001, Vol. 66 to change the licensing hearing process for nuclear power reactors. The public is entitled to full and meaningful participation in an on-the-record hearing process for the licensing of new reactors, the relicensing of aging reactors and industry amendments to operating license safety requirements.
