Dear Mr. Bell:

This is to request amendment of Fenwal's Registration Certificate No. NR-668-D-101-E to change our name from "Walter Kidde & Company, Inc., Fenwal Division" to "Kidde-Fenwal, Inc." and to provide for the Kidde-Fenwal Model CPD705X smoke detector.

Detailed information on radiation safety features of the CPD705X, and also information on its ability to perform as a products of combustion detector, are contained in our enclosed application. It may be noted that the CPD705X uses the Amersham AMM 1001 foil which Fenwal and other manufacturers have extensively used in detectors. Also, although the detector is designed for commercial and industrial use, it requires only a single 0.7 microcurie AM-241 source.

Labels on the detector and point-of-sale package will comply with the requirements of Section 32.29(b).

The CPD705X will be manufactured by Nohmi Bosai, Ltd. in Japan and distributed in the U.S. by Kidde-Fenwal, Inc. The quality control program at Nohmi Bosai and the quality control program at Kidde-Fenwal combine to ensure our distribution of a high quality product. The respective programs of Nohmi Bosai and Kidde-Fenwal are detailed in our application for amendment.
