Subject: Re: FOIA/PA 2001-0274

Case No: 2001-0370
Date Rec'd: 09-20-2001
Action Off: Bkown
Related Case: (2001-0274)

Dear NRC FOIA and PA Officer,

On 1 June 2001, the NRC received an official FOIA/PA request (i.e., FOIA/PA 2001-0274) from Mr. Frank Barranco of EA Engineering, Science and Technology (EA) concerning radiological activities at Gettysburg College (Gettysburg, Pennsylvania), as authorized by NRC License No. SNM-245. EA is under contract to Gettysburg College to investigate the status of two radiation laboratories that are located on campus.

The NRC FOIA/PA information regarding NRC License No. SNM-245 was sent to Mr. Barranco on 29 August 2001. After reviewing the information, it was determined that additional information was needed regarding the Gettysburg College site. Specifically, EA respectfully requests any information regarding NRC License No. 37-06176-01 and NRC License No. 37-06176-02 (note: it is unclear whether this is a separate license or an amendment to 37-06176-01). Due to our project deadline for this site, EA would like to expedite delivery of this information if possible and appreciates any assistance that the NRC can provide. Please let us know if there is anything that we can do (such as coming down to an NRC office) in order to speed up the process.

If you have any questions, please contact Frank Barranco or Amy Jo Glemza at (410) 771-4950 or reply by email to jglemza@eaest.com.

Sincerely,

Amy Jo Glemza
Project Engineer
