PROPOSED RULE PR 1, 2, 50, 51, 52,
54, 66, 70,
73, 76 + 110

Hello Secretary,

Yes, you are on the right track. Without public "participation" to license new reactors, this puts us speeding towards totalitarianism.

No, we the people will not tolerate that. You will see more protesting and demonstrating than ever.

So go ahead, exclude us. The wrath of the people will be brought out: just as sure as sure as gravity of the sun is holding the planets in orbit.

Sincerely,

Peter Fox Sipp
