Sorry about the confusion. If you will recall, part of my [REDACTED] investigation involved allegations of a chilling effect at MURR. That = investigation was closed some months ago and the Office of Enforcement = elected to send out a chilling effects letter as a result. Unfortunately, = I was not authorized to release that information prior to the issuance of = the letter. As I mentioned on the phone last week, the investigation = involving [REDACTED] is ongoing and therefore, no action has been contemplated.

I just received a frantic call from MURR regarding a "chilling effects" = letter that they received. Is this a part of your effort/report? I guess = this is what you and I discussed regarding a rumor that was circulating????=
