MEMORANDUM TO: Andrea L. Kock, Allegation Coordinator, EICS  
FROM:   
Bruce L. Jorgensen, Chief, Decommissioning Branch  
SUBJECT: REVIEW OF Department of Labor (DOL) DOCUMENTS  
ALLEGATION NO. RIII-00-A-0127 (COMED) (Serial # 16 and 17)  
(AITS M00-4274)

This is in response to your memo to me on this topic dated August 22, 2000. As requested in your memo, we have reviewed the information attached thereto.

No new safety concerns or enforceable items were identified in our review. I do not believe there were any previous safety concerns or enforceable items related to this case, either. It is solely a discrimination case.

It appears that DOL did not substantiate the CI's claim of retribution, and after filing a timely appeal of the decision, a subsequent Notice of Withdrawal was filed. No further action is needed as regards safety or technical regulatory matters.

Nothing was identified which should impact OI's priority or schedule on this case.
