Dear Chairman Meserve:

I represent the town of Plymouth and the surrounding communities. As you know the Pilgrim Nuclear Power Plant sits on the waterfront in Plymouth. My towns have always been concerned with safety and security at the plant; and the new company, Entergy, has done a good job in turning the plant around and providing a better comfort level to the people of my District.

However, I have long been concerned with the level of expertise provided by contracted security companies. In this new world, I am most concerned. Therefore, I respectfully request that the NRC federalize all security systems in nuclear power plants. The cost can be absorbed by a partnership between the federal government and the companies that operate these plants.

Thank you for considering my request. I look forward to a prompt reply.

Sincerely,

THERESE MURRAY
State Senator
Plymouth and Barnstable District
