Quad Cities Nuclear Power Station, Units 1 and 2
Facility Operating License Nos. DPR-29 and DPR-30
NRC Docket Nos. 50-254 and 50-265

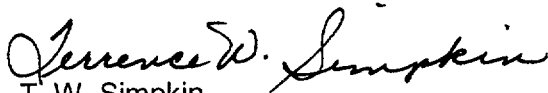

Subject: Rescinding of Withdrawal Request of a 10 CFR 50, Appendix R Exemption

Reference: Letter from J. P. Dimmette, Jr. (Commonwealth Edison Company) to U.S. NRC,
"Title 10 CFR 50, Appendix R Exemptions," dated June 2, 2000

In the reference letter, Exelon Generation Company (EGC), LLC, formerly Commonwealth Edison Company, requested withdrawal of certain exemptions to 10 CFR 50, Appendix R, "Fire Protection Program for Nuclear Power Facilities Operating Prior to January 1, 1979." In the reference letter, EGC requested a withdrawal of an exemption titled "Justification for Removal of Control Power to Defeat High Impedance Faults (Quad Cities Fire Protection Report, Volume 4, Section 9.1)." In a September 7, 2001, teleconference between representatives of EGC and Mr. S. Bailey of the NRC, EGC agreed that due to the continuing need for the exemption we would rescind our request to withdraw this specific exemption. This letter formally rescinds the request of the withdrawal as agreed. The request to withdraw the balance of the exemptions described in the reference letter remains unaffected.

Should you have any questions concerning this letter, please contact Mr. Wally Beck at (309) 227-2800.

Respectfully,

T. W. Simpkin
