Docket Nos. 50-315
50-316

U.S. Nuclear Regulatory Commission
Regional Administrator, Region III
801 Warrenville Road
Lisle, IL 60532-4351

Donald C. Cook Nuclear Plants Units 1 and 2
REQUEST TO RESCHEDULE THE JANUARY 7, 2002, PROBLEM
IDENTIFICATION AND RESOLUTION (PI&R) INSPECTION

This letter provides a written follow-up to a conversation on September 6, 2001, between Mr. Ronald Gaston of Donald C. Cook Nuclear Plant (CNP), and Mr. David Passehl of your staff, concerning the upcoming PI&R inspection. During this conversation, Mr. Gaston informed Mr. Passehl that CNP would be requesting the Nuclear Regulatory Commission's consideration for rescheduling the PI&R inspection presently planned for the weeks of January 7 and January 14, 2002.

The schedule for the CNP Unit 2 refueling outage has been revised such that it will not be completed until the first quarter of 2002. Therefore, as a result of potential conflicts with other planned activities, I am requesting that the PI&R inspection be rescheduled to begin after the second quarter of 2002.

Should you have any questions, please contact Mr. Ronald W. Gaston, Manager, Regulatory Affairs, at (616) 697-5020

Sincerely,

A. C. Bakken III
Site Vice President
