

The Honorable Dan Schaefer, Chairman December 1, 1997
Subcommittee on Energy and Power
Committee on Commerce
United States House of Representatives
Washington, DC 20515

AF 53-4
⑥

Dear Mr. Chairman:

Enclosed for the information of the Subcommittee is a copy of an amendment to 10 CFR Part 73 to be published in the Federal Register.

The amendment deletes certain security requirements associated with an internal threat following NRC's reconsideration of nuclear power plant physical security requirements to identify those that are marginal to safety, redundant, or no longer effective. The effect of this action is to reduce the regulatory burden on licensees without compromising physical protection against radiological sabotage required for public health and safety.

Sincerely,
