Re: 10 CFR Part 73 - Changes to Nuclear Power
Plant Security Requirements Associated with
Containment Access Control

Dear Sir or Madam:

Representatives of IBEW have reviewed the proposed
rules change, as captioned above and printed in the
Federal Register Vol. 60 No. 90, dated May 10, 1995.

Based on our review of the background information
contained in the notice of the proposed rule change,
including the comments that the deletion of security
personnel at the containment area does not degrade the
physical security of access to the containment area
while relieving licensees of an unnecessary burden, is
in support of the rule changes being proposed.

Very truly yours,

Thomas J. Kraus
