Docket Nos. 50-387
& 50-388

Dear Mr. Hoyle:

Pennsylvania Power & Light Company agrees that the deletion of Para. 73.55(d)(8), separate access control to containment, is appropriate for the reasons delineated in the proposed rule change and compliment the Commission on this action. Elimination of this "unnecessary for safety" requirement will result in cost savings for the company.

We appreciate the opportunity to comment on this proposed rule.

Very truly yours,

R. G. Byram
