Mr. Roger L. Suppes, Chief  
Bureau of Radiation Protection  
Ohio Department of Health  
246 North High Street, P.O. Box 118  
Columbus, Ohio 43216-0118

Dear Mr. Suppes:

As requested, we have reviewed the proposed regulations in Ohio rule 3701:50, "Transportation of Radioactive Material," sent January 30, 2001. These regulations are to replace 10 CFR Part 71 that Ohio adopted by reference prior to the effective date of the 274b Agreement. The proposed regulations are in response to the one amendment identified in the enclosed State Regulation Status (SRS) Data Sheet. The regulations were reviewed by comparison to the equivalent NRC regulations in 10 CFR Part 71. We also discussed our review of the regulations with Marcia Howard on March 7 and 14, 2001. We will respond separately to your March 19, 2001 letter regarding deliberate misconduct that resulted from these discussions.

As a result of our review, we have 5 comments that have been identified in the enclosure. Please note that we have limited our review to regulations required for compatibility and/or health and safety. We are also enclosing an editorial mark-up identified during our review. Under our current procedure, a finding that a State regulation meets the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final State regulation. However, we have determined that if your proposed regulations were adopted incorporating the comments and without other significant change, they would meet the compatibility and health and safety categories established in Office of State and Tribal Programs (STP) Procedure SA-200, revised February 6, 2001.

We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in STP Procedure SA-201, *Review of State Regulations*, (November 10, 1998), please highlight the final changes and provide one copy to STP.

The SRS Data Sheet summarizes our knowledge of the status of other Ohio regulations. Please let us know if you note any inaccuracies or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the STP Web Site: <http://www.hsrdo.org/nrc/rulemaking.htm>.

If you have any questions regarding the comments, the compatibility and health categories, or any of the NRC regulations used in the review, please contact me or John Zabko of my staff at 301-415-1277 or JGZ@NRC.GOV.

Sincerely,

/RA/

Frederick C. Combs, Deputy Director  
Office of State and Tribal Programs

## EDITORIAL CHANGES

1. In 3701:1-38-01 (105), the reference to Part 173 was omitted in the reference to 49 CFR 173.
2. In 3701:1-38-01, the reference to rule 3701-39-021 is incorrectly written as 3701-39-02.1.
3. In 3701-1-50-17, there are references to both "table 1" and "paragraph I (1)"; both of which are the same. There should be consistent use of either one.
4. In 3701-1-50-25 D (2), the lower case "f" used in the equation, is referred to in the paragraph with an uppercase "F." The two F's need to be the same.
