Gentlemen:

By letter dated April 13, 1978, we issued Amendment Nos. 40 and 39 to Facility Operating License Nos. DPR-32 and DPR-37 for the Surry Power Station, Units 1 and 2, respectively. Proposed revision pages 4.15-1, 4.15-3 and Figure 4.15 which were inadvertently included in these amendments are not at this time part of the Technical Specifications. Our review of your request to revise Specification 4.15.A, Figure 4.15 and Specification 4.15.C is still underway and will be reflected in a future licensing action. Accordingly, you are requested to delete these pages from Amendment Nos. 40 and 39. A corrected updating instruction sheet for these two amendments reflecting these changes are enclosed. I regret any inconvenience this administrative error may have caused you.

Sincerely,
