

JUN 22 1993

Mr. David Rodgers
Office of Alternative Fuels
EE-33
U. S. Department of Energy
1000 Independence Avenue, SW
Washington, D. C. 20585

Dear Mr. Rodgers:

This is in response to the memorandum to Federal Interagency Energy Policy Committee Task Force from Mr. Jerry Allsup, Director, Office of Alternative Fuels, dated May 27, 1993, which provides guidance for updating the 5-year alternative fuel vehicle (AFV) plan for fiscal years 1994 through 1998.

Attached is our Agency's five-year plan completed in accordance with the guidance provided to reflect replacement of our Headquarters' fleet of 33 vehicles. Each of our regional offices has less than 20 vehicles, which, according to the guidance exempts them from the need to submit an AFV 5-year plan. Also, attached are Forms 1 and Summary as supplements to the five-year AFV plan.

We understand that actual vehicle replacement will depend on availability of vehicles through the General Services Administration and availability of alternative fuel refueling stations. It is also understood that the reduction of our motor vehicle fleet in compliance with Office of Management and Budget Bulletin 93-11 may also impact the AFV replacement program.

If you have any questions regarding our plan please call Ms. Renea Bailey on (301) 504-2265.

Sincerely,

Original signed by
Patricia G. Norry
